### Corrects

## The features you'll love

- CooperVision® multifocal design offers great vision at all distances.<sup>2</sup>
- Soft silicone hydrogel lens material with high breathability helps keep your eyes healthy and white.<sup>‡1</sup>
- WetLoc® Technology and high water content help keep your contact lenses moist, supporting excellent all-day comfort.
- UV blocker helps protect your eyes against the transmission of ultraviolet rays, helping support your eye health.\*

\* Warning: UV-absorbing contact lenses are not substitutes for protective UV-absorbing eyewear, such as UV-absorbing goggles or sunglasses, because they do not completely cover the eye and surrounding area. Patients should continue to use UV-absorbing eyewear as directed.

+ During daily wear.

+ With higher oxygen permeability than hydrogel materials, silicone hydrogel contact lenses minimize or eliminate hypoxia-related signs and symptoms during lens wear.
